

At-a-glance

RAVA Vista[®]
variable annuity

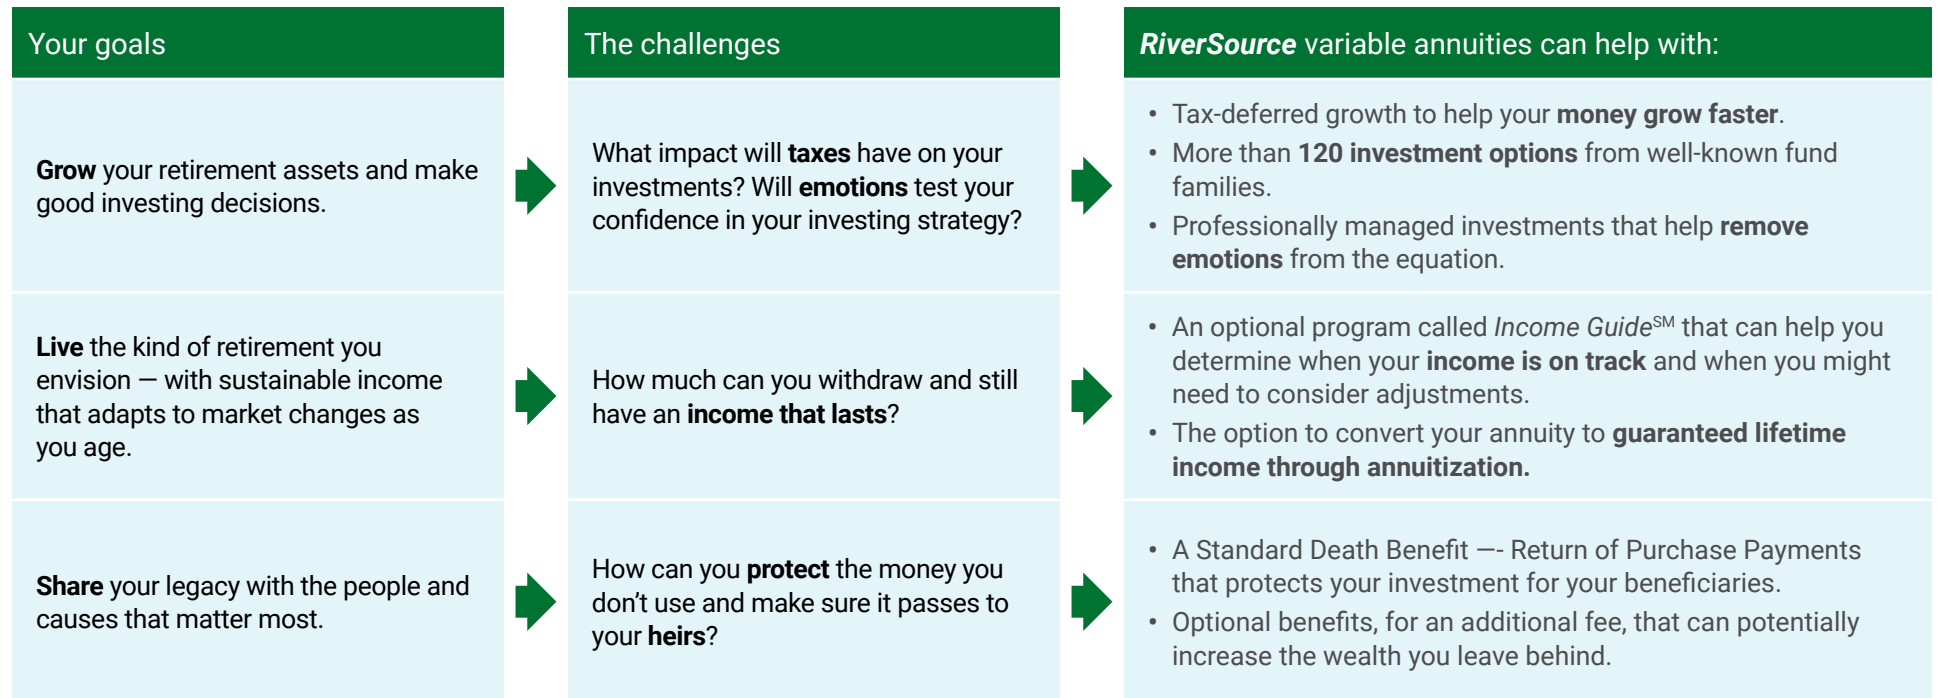

The retirement challenge

What are your goals and what challenges will you face?

Retirement is a new beginning, with many exciting possibilities, but also with many unanswered questions and potential challenges. At RiverSource, we understand that to live the life you envision, you need a solid financial plan to help you meet your goals at each stage of life.

Take charge of your retirement with a *RiverSource*[®] variable annuity.

Variable annuities can help you position yourself for a more confident retirement. They are long-term investment vehicles designed to help you through each stage of your investing life — as you **grow** your wealth for the future, create sustainable income to **live** more confidently in retirement, and prepare to **share** your legacy with the people and causes that mean the most to you.

Unlike other investments, variable annuities offer guaranteed death benefits. Our *RiverSource* variable annuity guarantees are subject to the continued strength and claims-paying ability of RiverSource Life Insurance Company. These guarantees do not apply to the performance of the variable subaccounts, which varies with market conditions.

VARIABLE ANNUITIES

ARE NOT A DEPOSIT • ARE NOT FDIC INSURED • ARE NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY • ARE NOT BANK, CREDIT UNION OR SAVINGS & LOAN GUARANTEED • MAY LOSE VALUE

Investment flexibility

Build a diversified portfolio to meet your needs from more than 120 funds.

Individual funds

Dozens of expertly selected individual funds offer the opportunity to build a customized portfolio from a variety of investment types including equity funds, fixed income funds, and sector and alternative funds.

Asset Allocation funds

Asset Allocation and Risk-Managed funds are “funds of funds” that are broadly diversified across asset classes, market sectors and holdings. These funds are designed to provide growth while addressing market risk and volatility.

Freedom to move

Unlike traditional “taxed-as-you-go” investments, with an annuity you pay taxes on any earnings once they are withdrawn. This gives you the freedom to move among your investment options and rebalance your current portfolio without triggering fees or taxes.¹ Your Ameriprise financial advisor can help you select the fund – or combination of funds – that will best meet your needs.

BLACKROCK is a registered trademark of BlackRock, Inc., or its subsidiaries in the United States and elsewhere. All other trademarks are those of their respective owners.

Columbia Threadneedle Investments is the global brand name of the Columbia and Threadneedle group of companies.

¹ When used in a tax-deferred plan, annuities do not provide any additional tax deferral.

Product details

You can open your variable annuity with a minimum initial purchase payment of \$2,000 for qualified contracts and \$5,000 for nonqualified contracts.¹ After that, you may make additional purchase payments of \$50 or more. If there is a group bill set up, the minimum is \$50 for any frequency. Maximum issue age is 90. Age limits apply to the age of the oldest owner. In cases of a non-natural owner (defined as an entity other than an individual; for example, a trust or a corporation), the age of the annuitant is used.

Fees and expenses	Issue age	Mortality & Expense (M&E) fees with Standard Death Benefit	Mortality & Expense (M&E) fees with Contract Value Only ²
	7-year surrender charge schedule	80 or younger	1.20%
81+		1.55%	

The M&E fee will be 0.10% lower for contracts with \$1,000,000 or more (determined when purchase payments are received in year one and each contract quarter).

Subaccount management fees – vary by fund and do not apply to the Special Dollar-Cost Averaging (SDCA) Fixed Account.

Contract administrative charge – \$50 deducted from contract value on contract anniversary (waived on contract values of \$50,000 or more) and for full surrenders. We reserve the right to change the annual contract administrative charge after the first contract anniversary, but the charge will never exceed \$65. We also reserve the right to charge up to \$15 after the first contract anniversary on contracts of \$50,000 or greater.

Surrender charge schedule The surrender charge period begins when your contract is issued and ends on your seventh contract anniversary. Surrender charges are based on your total purchase payments, not your contract value. There will never be surrender charges on purchase payments you add to your contract after the seventh contract anniversary.

Number of completed years	0	1	2	3	4	5	6	7+
7-year surrender charge schedule	7%	7%	7%	6%	5%	4%	2%	0%

Access to your money

- Each year, you have access to your cumulative earnings or 10% of your prior year contract anniversary value, whichever is greater, without surrender charges. During the first contract year, you have access to your cumulative earnings or 10% of all purchase payments, whichever is greater, without surrender charges.
- No surrender charges apply for amounts paid to owner if you become terminally ill or are confined to a hospital or nursing home, provided contract requirements are met. The nursing home and hospitalization waiver is available if the owner was under age 76 at contract issue.
- If your spouse beneficiary continues the contract, there will be no surrender charges on the contract from that point forward unless additional purchase payments are made.

Optional feature: Income Guide program

- Once you begin taking withdrawals, this program provides a clear guide to the projected sustainability of your income.
- No additional fee.
- Availability: Enrollment can occur anytime between ages 50-85. The program ends at age 95.
- Not available for Inherited IRAs or if you take annuity loans or Substantially Equal Periodic Payments (SEPPs).

¹ The maximum purchase payment for ages up to 75 is \$3,000,000 and for ages 76-90 is \$1,000,000 (based on your age when the payment is received). These limits apply to the maximum first-year and overall cumulative purchase payments for all RiverSource annuities owned by the same individual. Purchase payments exceeding these limits require prior approval. RiverSource reserves the right to limit certain annuity features (for example, investment options) if prior approval is required.

² Available with nonqualified contracts only.

Standard Death Benefit – Return of Purchase Payments

Standard Death Benefit

- Guarantees that your beneficiaries will receive at least the amount you invested, adjusted proportionately for withdrawals.
- Included in the M&E fee.
- Can elect to opt out for a lower M&E fee (nonqualified contracts only). Beneficiaries would receive the Contract Value only. Optional death benefits are not available with this option.

The Standard Death Benefit guarantees that your beneficiaries will receive at least what you invested even if markets don't perform.

■ Contract value
— Standard Death Benefit value

This graph is for illustrative purposes only. It does not represent the actual performance of any investment option nor guarantee that investment goals will be met. The graph assumes no withdrawals were taken and does not include fees and expenses.

Optional death benefits

Maximum Anniversary Value (MAV)

- Fee: 0.25% added to M&E.
- Availability: Age 79 or younger.
- Can be combined with BP.

Maximum Five-Year Anniversary Value (MAV5)

- Fee: 0.10% added to M&E.
- Availability: Age 75 or younger.
- Can be combined with BP.

Enhanced Legacy[®] benefit (ELB)¹

- Fee: Through age 85, the annual fee is 1.00% of the greater of the contract anniversary value or the ELB guaranteed death benefit amount. After age 85, the annual fee is 1.00% of the ELB guaranteed death benefit amount. Maximum fee not to exceed 1.75%.
- Availability: Age 75 or younger; not available with joint ownership.
- Available fund options include the nine Portfolio Stabilizer funds and four Portfolio Navigator funds (Conservative, Moderately Conservative, Moderate, and Moderately Aggressive).
- We reserve the right to limit additional purchase payments for contracts with ELB.
- Not able to be combined with BP.

Benefit Protector[®] Death Benefit (BP)

- Fee: 0.25% of the contract anniversary value annually.
- Availability: Age 75 or younger.
- Can be combined with MAV or MAV5.
- Beneficiaries are guaranteed to receive up to an additional 40% of any contract earnings (25% if age 70 or older at time of purchase).

¹ In California, the owner and annuitant must be the same when you initially invest in your annuity. The annuitant cannot be changed. If there is an owner change, only the Standard Death Benefit will be payable at the owner's death and the guaranteed death benefit under the rider will be payable at the annuitant's death.

Your choice for value

Four reasons to consider a *RAVA Vista* variable annuity.

1

Our parent company, Ameriprise Financial, Inc., has been helping people achieve their financial goals **for 130 years** and **maintains strong balance sheet fundamentals**. We have a solid history of providing innovative products and services to help clients achieve a more confident retirement.

2

Available exclusively from RiverSource Life, the *Income Guide* program will provide you with **ongoing information** to help you plan your annuity income strategy. Once you begin taking withdrawals, the *Income Guide* program provides a clear guide to the **projected sustainability** of your annuity income.

3

You have the **flexibility to add money** to your contract without starting a new surrender charge. There will never be surrender charges on any purchase payments and rollovers after the seventh contract anniversary.

4

If your **RAVA Vista** is a nonqualified annuity, your beneficiaries will have the option to invest their inheritance in an “inherited nonqualified stretch” annuity. This option allows them to avoid a large, immediate tax liability. Instead, they will take annual required distributions and stretch out any taxable gains on earnings.

The company you choose matters

When you choose RiverSource Life Insurance Company (RiverSource Life), you want to be confident we'll be here for you today—and tomorrow. RiverSource Life was founded 1957 and, as a subsidiary of Ameriprise Financial, Inc., we trace our roots to 1894. For decades, we've been honoring our commitments to help clients grow their assets, manage their income and protect what matters most.

To view our current ratings, visit [strengthandsoundness.com](https://www.strengthandsoundness.com).

The purpose of this brochure is to facilitate the solicitation of a RiverSource variable annuity. Your Ameriprise financial advisor may discuss the variable annuity with you and whether it makes sense for you, given your financial goals and needs.

Variable annuities are insurance products that are complex long-term investment vehicles that are subject to market risk, including the potential loss of principal invested. Before you invest, be sure to ask your financial professional about the variable annuity's features, benefits, risks and fees, and whether the variable annuity is appropriate for you, based on your financial situation and objectives.

A variable annuity subaccount may have a name, portfolio manager, objectives, strategies and characteristics that are the same or substantially similar to those of a publicly traded retail mutual fund. Despite these similarities, the variable annuity subaccount is not the same as any publicly traded retail mutual fund. Each underlying fund that a subaccount invests has its own unique portfolio holdings, fees operating expenses and operating results. The results of each variable annuity fund may differ significantly from any publicly traded fund.

RiverSource cannot guarantee future financial results, and there is no assurance that an annuity or optional rider will keep up with inflation.

Surrenders that do not qualify for a waiver may be subject to a surrender charge. Surrenders are subject to income taxes and surrenders before age 59½ may incur an IRS 10% early withdrawal penalty.

The *Income Guide* program is not a guarantee of income nor is it intended to preserve your principal, and your contract may run out of money. The *Income Guide* program is not investment advice.

As part of the *Income Guide* program, we provide you with information regarding your annuity income, but we do not determine whether to make adjustments to your withdrawal amount or investment allocation. You need to decide what changes or adjustments may be right for you, or whether to seek assistance of a financial advisor in making any decisions, based on the information provided and your given needs and circumstances.

About asset classes

In general, equity securities tend to have greater price volatility than debt securities. The market value of securities may fall, fail to rise, or fluctuate, sometimes rapidly and unpredictably. There are risks associated with fixed income investments, including credit risk, interest rate risk, and prepayment and extension risk. In general, bond prices rise when interest rates fall and vice versa. This effect is more pronounced for longer-term securities. Investments in foreign securities involve certain risks not associated with investments in U.S. companies, due to political, regulatory, economic, social and other conditions or events occurring in the country, as well as fluctuations in currency and the risks associated with less developed custody and settlement practices. Alternative investments involve substantial risks and are more volatile than traditional investments, making them more suitable for investors with an above average tolerance for risk. Investments in a narrowly focused sector such as real estate exhibit higher volatility than investments with broader objectives. Real estate related investments involve risks which can include property value fluctuations, defaults by borrowers or tenants, market saturation, decreases in market rates for rents, and other economic, political, or regulatory occurrences affecting the real estate industry, including REITs. Funds whose investments are concentrated in a specific industry, sector, or geographic area may be subject to a higher degree of market risk than funds whose investments are diversified. See each fund's prospectus for specific risks associated with the fund.

You should consider the investment objectives, risks, charges and expenses of the variable annuity and its underlying investment options carefully before investing. For a free copy of the annuity's prospectus and underlying investment's prospectus, which contains this and other information about variable annuities, call 1-800-333-3437. Read the prospectuses carefully before you invest.
